In winter when it is snowing and windy you can often see heaps of snow on the floor of our rooms. So poor! One cannot look at it quietly! The paper on the walls is torn, the glass in the windows broken, and the frames so old and rotten that you cannot open the windows for fear of its falling to pieces. Our rooms are sad to look at. No chairs, only one wooden stool, and wooden planks to sleep on, seething with vermin. Seldom a mattress, usually rags for the bedding, and no pillows. The children and parents very poorly clad. When you enter such you are struck by the look of the children. Facing the Facts!

Says Sydney Brooks in Harper's Weekly:

"The politicians are always the last people to see what is going on under their noses. They will jeer at me when I prophesy, with the utmost confidence, that at the next presidential election the Socialists will poll over a million votes. They the politicians) do not realize that the masses have sickened of the buncomh and insincerities of the old parties or that they are coming to realize that politics as played in the United States is no more than a game between two sets of sharp-headed politicians. The public, I believe, is growing less and less muddle-headed. It is having a pretty severe training in actualities; it is getting to see things as they really are. It sees, for instance, that in America the scale dips down on the side of capital more heavily and head the idea of throwing off the wantouly than in any other country in the world; it believes - is wrong in believing?—that the mill-ionaire and the boss rule and own this land and everything that there is above and beneath it; that together they cannot control all the functions of government; that the courts and the ballot box are merev instruments of their power; and he constitution a band-maid of their iniquities; that all legislation is conceived in their interests, drafted and voted for by their benchmen: that there is one law for the rich and another for the poor; ten Atheist," and now wants to do thousand dollars for the protection of property and only twenty dollars for the protection of human life; that under the forms of democraey the American system and the American deas have been warped and perverted into a conspiracy of plutoerats and professignal politicians against the common weal; that justice and equality -not only social equality of op-portunity-have vanished from the American soil; and that many millons of Americans, women and children as well as men, fatuously calling themselves free, are held in the grip of a wage slavery more hor-rible and more remorseless than

Says the Catholic Citizen, quoting the average anti-Socialist priest:

"'Socialism is wrong, because our Holy Father the Pope has condenned it in the Encyclical Rerum Novarum.

Another Foreign Notion!

By Victor L. Berger.

VERYBODY knows that the labor movement of Germany, shows in general a broader activity than the labor movement of either England or America. This is due to the stimulating influence of Socialist ideas.

The platform of the German labor movement-political as well as enconomic includes demands, for instance, which have not even been thought of by workingmen of other countries.

Just now the question of summer vacations is agitated in Germany, and the trade unions there are taking this matter in hand.

And the interest in this question is not confined to trade union eircles in Germany. Members of the capitalist class are also considering this problem-only, of course, in most cases in order to op-

Yet the German is a methodical person. And thus the Association of the Chambers of Commerce of Germany sent out a list of questions all over the country in order to determine what would be the effect on privately owned industries if the states, the countries, and the municipalities should grant all their workmen and employes a summer vacation with full pay.

Now, as everybody knows, the state in Germany employs very many workingnish on the railroads and other similar institutions. The cities also manage and operate a good many of the public service institutions. And therefore a vacation of two weeks with full pay would reach very many persons of the labor-

Quite full replies have been made to these questions by members of the Handels-Kammer (Chamber of Commerce) ot Berlin.

The directors of the Handels-Kammer report that the great majority of the privately owned industries give no sort of summer vacation whatever, and that many factory owners declare that they do not intend to give any such vacations in the future, no matter what the state or the city may do. Some complain that the influence of the state is very pernicious;

Only a comparatively small number of private firms had intro-duced summer vacations in their factories in the last two orthree years. The extent of the vacation, according to their report, depends on the length of service and varies greatly. In some cases it is only a few days. In others it is two or three weeks. It depends upon the years of service and the kind of work done by the factory. In some instances, for example, according to these answers, the workman gets a vacation of eight days after three years service, of ten days after five years service, and of fourteen days after ten years service. For the most part, conditions determine the vacations. In a few cases, the unions have stipulated for a vacation when making a contract with the

The report of the directors of the Chamber of Commerce of Berlin gives great prominence to the question of the influence of the summer vacation for workingmen on the relations between employer and

There were different opinions on this point.

Some held that the benevolent interest shown by the employer in his employees in granting them a summer vacation with full pay has not successed in evoking a friendlier attitude on the part of the work-ingmen. These employers claim that the accustomed insolence of the workmen in continually demanding higher wages and better condi-tions has not been diminished at all by the fact that they got a vaca-

Other employer, thought that this generousity on the part of the employers would by and by be appreciated by the working. There employers very wisely claim that the hateful attitude of the workingmen to the employers was the product of a variety of causes and that therefore it was impossible to determine the effect of one measure, like granting them a summer vacation.

These employers hold that the summer vacation for workingmen had a good effect, in respect to the employers' benefit, and that it was therefore not to be regarded as a sacrifice at all, even from the stanopoint of the employers.

Now the German Socialist papers—which in Germany include about the entire labor press—sharply criticise these answers. They bring out that the laborer's side of the matter has not been considered at all, nor the higher standpoint of the welfare of the nation, which after all depends upon a strong and healthy laboring class. The Socialist papers demand that this question be discussed from a national hygienic standpoint, and from the standpoint of the just rights of the workingman. They scorn the benevolence of the capitalist class, and laugh at the idea that the granting of the paid vacation can in any way abolish class feeling of the workingmen against the

Yet they admit that the workingmen will appreciate concessions from employers without softening their other demands for that reason. But if the capitalist class imagines for one moment that by granting workingmen vacations for a week or two, the proletariat will be made socile, then that is a forlorn hope. So much for the discussion of this subject in Germany.

The American trade union movement has not yet considered the problem of summer vacations for workingmen at all. At least we have not heard any instance of any trade union demanding a m summer vacation of two weeks with pay from the owners of the factory. But we ought also to remember that in Germany, on account of its more moderate climate, vacations are not so necessary as in America, where the summer's heat is very oppressive. Yet in Germany, the employers themselves are discussing it. That is the influence of a strong Socialist movement.

And it seems reasonable that what is so generally conceded to clerks and office help should no less be the right of a factory hand and of workers in the building trades. The right to a vacation during the summer months ought to be made the demand of every trade union alongside of the demand for higher wages, and shorter hours of

As a matter of fact, the summer vacation is far more necessary for the factory worker than for the bank clerk. And we all know that every capitalist and his family take a vacation for all summ But, of course, the workingmen of this country would have to fight be-fore the capitalist class can be made to "understand" this.

In order to be able to make this fight effectively, the working class itself must be confinced of the necessity of summer vacations This may be a "new one" for America, but as we have seen, it is a general demand in Germany. And it cannot hurt our trade union movement and our working class if we import another entirely "un-American" and "foreign" idea from Germany, and see whether we can "re-incarnate" it in this country.

HE Social-Democratic party is the American political expression of the international movement of the modern working class for better food, better houses, sufficient sleep, more leisure, more education, and more culture.

Under the present system, society is rapidly dividing into two classes: the pich and the poor, the capitalist class and the prole-

whatever original about it; the deprayity of the "higher classes of society" is a common thing in Europe. If the Americans permit Chicher so: sale of his products. Both are again exploited in the purchase of practically all the necessities of life.

The final aim of the Social-Democratic party is the emancipation of the producers and the abolition of the capitalistic system. For

that purpose, we organize the producing classes in city and country into a political party to take control of the powers of government.

The most characteristic expression of the present economic system is the trust and the monopoly,

Electricity, steam, and many modern inventions have struck the

death blow at production on a small scale. Competition has wiped out competition. Production on a large scale makes monopoly a necessary condition. The trust and the monopoly are here, whether we wish it or not. The only question is whether they shall be public or private monopolies.

Why Higher Gas here?

Municipal Journal and Engineer It is interesting to note that while a great flood of comment, inquiry and discussion is covering this country from end to end respecting the price of gas to the consumer a glance at things in this regard on 'the other side of the pond" shows such a marked difference as to what is paid there for this commodity that the matter is well worth quot-

Without particularly specifying Glasgow and Birmingham, where the subject has been made one of special experiment, practice and administration, with the effect of re-ducing the price to 50 cents per thousand in Glasgow and 56 cents in Birmingham, respectively—about half of the average paid in the United States it is well to take one of the smaller towns where, it must be granted the facilities of purchasing raw material are not so advantageous as in the larger ones Here we find a still greater reduc-tion in price. Widnes, in Landecisions appears to have been thrust completely aside by the New York courts in their efforts to cashire, with a population of 30,000, supplies its gas to small consumers at 30 cents, to large consumers at from 22 cents to 26 cents, and yet, in spite of this, made a profit on its works in 1895 of no less than \$22-887.15. It is rightly claimed that this is the lowest priced gas in the world, although throughout Great Britain the general range of price

hovers between 40 and 70 cents.

Being in control, that class runs the government is its own interests and against the interests of the rest of the people who are the overwhelm-

against the interests of the rest of the people who had be managed in the ing majority.

We Socialist believe that the country should be managed in the interests and for the well-being of those who produce the wealth. That is what government is for in the first place. The means of existence are now privately owned by capitalists who comprise only twelve per cent. of the population. By means of this private ownership a mere ONE PER CENT. of the people OWN OVER HALF OF THE WEALTH OF THE NATION, and the concentration is going on at a nell-mell speed.

Under the present capitalist system, the majority of mankind must sell their labor power to the capitalistic owners of the means of production and distribution in order to live—and to live very miserably at that

at that.

The people own the post office and everybody is glad of the fact. The people ought to also own all the trusts so that all may enjoy the benefits. They ought to own every industry as soon as it has become sufficiently concentrated and organized to permit of such common ownership.

To bring this about, the people,—that is, the workers, not the shirkers—must have possession of the political power. The Social-Democratic party (known as the Socialist pary in some states, and nationally) is organized to bring this about—this and the abolition of capitalism. We insist that the industrious class shall be the wealthy class, and the icle class the poor and dependent class—although Social Democracy and in time abolish all poverty and eliminate the drones.

#### EDITORIAL ETCHINGS.

One more week and the circling year will present us with another Labor Day. It is a very significant day for Labor and a very valuable day for the propaganda for labor emancipation from the capitalist wage system. At no other day of the year are the toilers so ready to listen to us, at no other time are their minds more reflective and open to arguments. Labor has its mind on itself, looks at its sholdy clothes and crusts and tainted and painted food, its long hours, its telatively poor pay, its fund of ill health acquired through its treadmid existence, and reflects.

All the labor papers recognize this fact and aim to issue their best efforts for this occasion. Much more is this a duty with the distinctively Socialist papers, and behind them stand the army of propagandists ready to make the best possible use of the special numbers for the cause we all hold so dear. If a Socialist's conscience permits him to rest quiescent on other days of the year, it must be of leather indeed if it gives him a peaceful moment on this day.

On our first page this week is given some glimpses of our Labor Day issue, to be out next week. We place it in your hands comrades as our effort toward providing the best possible material for Labor Day propaganda. We are confident you will make the most of the

Resolutions on Trade Unions Passed by last National Socialist Convention.

The trade and labor union movement is a natural result of the capitalist system of production and is necessary to resist the encroach-ments of eapitalism. It is a weapon bor under the capitalistic system. However, this industrial struggle The strike of coal-miners in the ean only lessen the exploitation, but fassillon (C.) district has been it cannot abolish. The exploitation of labor will cease only when the operators conceded the 1903 the working class shall own all the scale without change, extra pay for means of production and distribunish work, pay for slack mining tion. To achieve this end the workling class must consciously become the dominant political power.

The organization of the workers will not be complete until they unite on the political as well as the industrial field on the lines of the class struggle.

The trade union struggle cannot atfain lasting success without the political activity of the Socialist party. The workers must fortify and permanently secure by their political power that they wring from their exploiters in the economic struggle. In accordance with the decisions of the International So-cialist Congresses in Brussels, Zu-rich and London, this convention reaffirms the declaration that the trade and labor unions are a ne-cessity in the struggle to aid in emancipating the working class, and we consider it the duty of all w-ge-workers to join with this movement

## Social - Democratic Party News.

County was pried wide open Thurs-day night when Geo H, Goebel, of Newark, New Jersey, national or-ganizer of the Social-Democratic party came to Kenosha to do a little boosting for the party which he represents. Goebel came to the city unhearalded, and his speech was not announced by signs and banners, but notwithstanding this fact he managed to get a crowd and the crowd evidently liked the speech for the speaker was repeatedly cheered. Goebel burst on Kenosha just after seven o'clock last evening, when he appeared on Main street armed with a me caphone. This was the weapon with which he decided to secure a hearing. Standing in the middle of the street he shouted defiance to the members comrades are going right to work of the two old parties, and chalof the two old parties, and challenged any member of them to meet him in joint debate on Market to build up a good strong organisquare. Goebel declared that this zation. was a campaign of education and THIENSVILLE.

### Cown Copies by the Cown Crier.

One of the funny papers has made famous the sentence: "It's great to be crazy!" A glance through the editorial page of the Milwaukee Sentinel last Tuesday morning prompted this thought: It must "great" to be a corporation newspaper editor.

And this isn't hinting that a newspaper editor who enlists his talents in the service of an ultra capitalist mouthpiece is crazy. It is more method than madness that is required in such a service. Method and a capitalist conscience.

"Billy" Walker died this past week, "Billy" was a good fellow. Even those who despised his vocation liked him personally-we admit to that ourself. He was sunny and companionable, but that was part of his qualifications for his job. He was "smooth." "Billy" was the legal monkey-worker of the Chicago, Milwankee & St, Paul railroad, its steady lobbyist—therefore AN ENEMY OF THE PEOPLE. For a railroad lobbyist lass to take the second of the chicago, which is the second of the people of the p byist has to take the people's elected representatives "into camp" and get the best of the public, either by eajolery or by means more criminol. He was a good fellow, who, in the stress of getting a living for himself and his family, sold his conscience to the railroads.

"Billy" Walker may not have dispensed boodle-but the chances are that he did, for the railways have had pretty much everything they wanted from the legislature and the city council in recent years. And "Billy" Walker is dead. And we mourn for "Billy" Walker, the man, but not for "Billy" Walker the fox.

Here's where it is "great" to be the editor of an organ that repre-

11th and Winnehago Sts. National Ave. and Grove St. 3rd and Lloyd Sts. sen's the interests that thrive by fleecing the people. The Sentinel had to give "Billy" an appropriate send-off. He was their kind of a man, and it from an an area we was to their interests to hold up such a man as a model type. So the Sentinel gave "Billy's" death a leading editorial of praise—a scandal-ous, shameful editorial of praise, an editorial as lost to shame and as devoid of the spirit of civic morality as—well, as the court preacher to Mr. Pfister, the Rev. Thomas Barr, himself! The editor started out by saying that Mr. Walker's career formed a "record well worth the attention of young men who must take their own opportunities and whose capital to start with is energy, a sense of capacity and the will We know a successful professional gambler in a Western city of whom exactly the same thing could be said!

Then the editorial goes on to say:

"Mr. Walker was in the best sense of the term a self-made-mannot merely a self-enriched, but a self-developed man whose cultivation and attainments were the result of the higher impulse and the unaided effort. And underlying Mr. Walker's attainments was the STURDY FOUNDATION OF CHARACTER, the innate, SOUND TENDENCY FOR WHAT WAS GOOD AND FAIR, that made his bie a record not only of what the world calls success, but a force making for RIGHT THINKING and SOUARE DEALING in the

In other words, young man, put aside your high ideals of civie righteonsness, and public accomisability, and sell your talents outright to the bribery department of some great corporation and be "successful!" Such is the advice of a great newspaper, which reflects the business morality of capitalism. And the churches, wonder why they pound their pulpits in vain!

There's .little more to be said, for the editorial tells its own shadeful story. However there are two words in the above quotation that are worth a little special attention. These are the words When a paper that is the organ of the corporations and is owned by Mr. Pfister talks of a "square deal" it means something. And what it means may be inferred from the fact that that same phrase appears conspicuously on the poster of Mr. Pfister's candidate for district attorney, young Boden. Boden is the hope of the grafters, who want a district attorney who will be easy on them and let toolling go on in the old way. They want a man, who, instead of hunting down graft will find other things to do-trying to jail the Socialists, for instance.

When such elements talk of "square deals" we have a right to suspect that it is the opposite they mean.

Of all miserable practices the taking of forced contributions from the city employes is about the worst. The men are helpless. If they refuse to give "volumarily" they know mighty well that they will be marked. The moment something can be found about their work that can be made a handle of they will be dismissed "for the good of It is the most COWARDLY kind of holding up, AND MILWAUKEE OUGHT NOT TO TOLERATE IT FOR AN IN-

A short time ago the policemen were shaken down for "voluntary" contributions to the Auditorium fund by the business interests in control of the city government. The business interests who will get all the benefit from the big hall were too stingy to come down handsomely themselves, and so they have resorted to all kinds of schemes to wring the money out of the people.

And now they are after the firemen! Through the mayor the firemen are informed that they are expected to denate certain sums. The assistant chiefs have been going around the houses, the papers say, and giving the orders to subscribe. Between \$2,000 and \$2,500 is to be secured in this low way. The "common" firementare to give \$5.00, the lieutenants and assistant engineers \$7, the engineers \$8, the captains \$10. The assistant chiefs say that \$20 has been demanded of them, and the chief will give \$30, it is said. And this reminds us The firemen were shaken down also at the time of the carnival. They got tickets, or at least gave the price of tickets, which admitted them to the big ball at the Calumet club. But the powers that be were too foxy to let "common firemen" sully the fine function by their presence AND ALL THE "OFFS" WERE STOPPED ON THE NIGHT OF THE BALL! "Twis ever thus!

This holding up of city employes—some departments escape, by the way-ought to be stopped, and stopped right away. The men are at the city's mercy, it is true, but the grip of the "husiness" element ought to be shaken off, and the men given decent treatment.

The calf mayor left town this way to bribe the reporters.

The Sentinel, Mr. Pfister's organ. gives it out as a piece of "news" that the council committee on street lights intends to recommend that he city enter into a contract with install a municipal lighting system. There is a difference between the news and the news as the Sentine! wishes it to be.

They are going to lock up a man down in Cincinnati who has been trying to start an alleged reform national party. He did all kinds of crazy things in picking out the "reformers" who were to be in the think of the pic. Ald. Stiglbauer of this city was one of those he se-lected for his national committee The people' say he ought to have been locked up.

Residents along North avenue week for an automobile trip to New complain that the street cars run York and took a number of news- too fast. This is because Beggs paper reporters along with him. makes a few cars do the work and othing like being a cub mayor races them around the circuit as with plenty of papa's money to fast as possible in order to make it spend, for it means lots of puffs in look as if there were plenty of cars. the papers if you go at it in the right Even then the time between cars is exasperatingly long for a busy, rapid-transit city. We need a major-ity of Social-Democrats in the city council to bring him to time.

#### AT THE THEATERS.

#### ALHAMBRA.

Charles M. Holly has given a regal production in the innocent musical comedy, "The Hall Room Boys" which opens at the Alhambra tomorrow afternoon. Tom Whiffen and William Clifton, a duo of stellar lights in comedy roles, have been selected for the parts of Ferdie and Percy respectively. They have entered into the real spirit of the vicissitudes besetting Perdie and Percy who "try to do it on \$7.50 per." Madison Square Garden in New York, the great automobile show in full blast, the familiar quarters of "the hall-room boys" when at home and lastly Herald Square by night, the ball-room of the Waldorf-Astoria and a masked ball in progress, are among the scenes. A splendid production with the added novelty of newness, the Alhambra promises the third week of entertainment on a par with the two preceding ones. All the week and the usual matinees.

#### BIJOU THEATER.

Chas. E. Blaney's well known melodrama. "Across the Pacific," comes to the Bijon tomorrow aftermoon to open the season of this popular Theater, which has undergone extensive decoration and furnishing. It is sensational, this play of Blaney's, but its excitement is so well carried out, both in the manner of scenic display and acting, that even those that ordinarily prefer a quieter drama cannot help but be nterested and entertained. The Montana mining country, the Chinese section of San Francisco,

### CRYSTAL THEATER.

The ever popular Crystal Theater will open its season a week from Monday, and a surprise awaits its patrons when they find themselves back in the old accustomed scats. They will see a newly beautified interior, entire new scenery, a stage enlarged to three times its former size, and so on. New dressing rooms have been provided above the stage and built of sheet iron and other changes have been made in accordance with the recommendations of the building inspector. The new season will witness some of the greatest vaudeville acts possible to obtain and nothing will be barred as the stage and stage surroundings are now such that the largest act can be accommodated.

#### STAR THEATER.

The Bohemian Burtesquers open Sunday afternoon for the week at the Star and promise a bang-up show, made up like an epicurean dinner with just enough of this and that, just enough spice and sugar to make the entertainment complete They wil present "The Derby Race," and a big olio of specialties. The company is a large one and easily a leader of its class.
